SUBSCRIPTION:
Basic + Dates

Includes:

1. **NEVI Plans**: Access all 50 state + District of Columbia and Puerto Rico plans; FHWA Approval Letters; additional documents (supplements, etc.); state funding amounts per year; estimated number of sites and chargers to be deployed per state; link to state NEVI websites (if available) and contact information.

2. **Key Dates & Deadlines**: Upcoming events for all states (Events: draft application feedback, evaluate proposals, letter of intent, projects awarded/deployment begins, public meeting/webinar, public survey, RPI/RFP available, RPI/RFP deadline, and site feasibility analysis).

3. **Email Notifications**: Regular emails notifying you of upcoming events and any news or changes on state's NEVI plans.

4. **Custom Workspaces**: Let us know what you need to track, and we'll add it to your dashboard. You'll be able to: add custom fields, edit and input your own information about specific sites and track your site applications, and integrate data from our other EV and EV charging databases.

Updates

Section: Texas DOT Feedback By Dec 16

Hello,

We hope everyone had a wonderful and relaxing Thanksgiving as we now enter the last month of 2022 and all of this year's renewal deadlines. Following is an update on new announcements from the Texas DOT and some new database functionality:

On November 21, we received an email from the Texas DOT, announcing that the deadline to submit new BEV program documents for the December 16 deadline has been extended to December 31,

Here is a link to the Texas DOT BEV Portal — scroll down to the section “Exhibits, including program documents” to see our new items for the December 31 deadline.

The program documents below have been updated and are available for review and comment until Friday, Dec. 30, 2022:

- Revised for Customer Feedback (PUC1)
- Cost Recovery
- Surplus Equipment
- Electric Vehicle Affirmative Action Plan
- Public Hearing Notice
- Electric Vehicle Affirmative Action Plan

Please note that the program documents from DPMTP and the important changes. Please send your comments to info@evadoption.com.

Texas DOT has updated and released the new version and deadlines for the application process — this deadline is a great boost to our draft implementation, various components, and other documents. There are several interesting things in the Texas evadoptions, including:

- Full credit for BEV/PHV in other states
- Full credit if reduced to $50,000 or less per connection
- Full credit for minimum annual through parking stalls
- Full credit for a retail agreement in place for site lease
- Full credit for the Bay Area requirement

Since 2015, BEV has always been significantly more than 1000 BEV vehicles, with a few of the highest deployment ratios and the Bay Area requirements. Texas is likely the only state that could meet these requirements. Of course, Texas’ board has not yet seen the CEV connected to the state by a proprietary connection and it will now call TMVE CEV connected to a charging requirement. At the high of the program documents, Texas has not had the chance to qualify for the Texas grants.

Updates (2)

Section: Buy America Waiver

4) Buy America Requirement Waiver: Earlier this week we received a question from a client about the Buy America requirement within the NEVI program related to EV charging hardware. We dove into the question and discovered three things:

- Within the state NEVI plans we discovered that they had very different takes on the Buy America requirement. In fact, some had a fairly negative commentary towards the requirement saying it’s going to be very difficult to meet the requirement and that they would be seeking a waiver.
- We then discovered that FHWA actually had sought input towards a potential Buy America waiver and set a deadline of September 30 for feedback.
- We then reached out to FHWA for an update and received the following response:

FHWA posted the Notice of Proposed Waiver of Buy America Requirements for Electric Vehicle Chargers in the Federal Register for comments on August 31st with a close date of September 30th. FHWA is currently reviewing comments to determine what course of action is most appropriate. We don’t have a verified timeline at this point, but we understand the urgency of the issue and hope to resolve something by the end of the calendar year.

We will keep clients up-to-date as soon as we hear anything on the waiver.
DATABASE SUBSCRIPTION

DECEMBER 1, 2022

This is a reminder of upcoming events:

1. ONa DOT JDDOT Request for Proposals (RFP) is on 12/21/2022
2. Iowa DOT RFP Funding Announcement is from 12/21/2022 to 09/20/2023
3. Montana Project Awarding is from 12/21/2022 to 06/21/2023
4. North Carolina Public Solicitation Phase 1 Group 1 is from 12/21/2022 to 03/20/2023
5. Texas Evaluate Proposals is from 12/21/2022 to 03/20/2023
6. Vermont VTrans Awarding is from 12/21/2022 to 03/20/2023
7. West Virginia WDOT Solicitation is from 12/21/2022 to 03/20/2023
