Section: Texas DOT Feedback By Dec 16

Hello,

We hope everyone had a wonderful and relaxing Thanksgiving as we move into the last month of 2022 and all of those year-end deadlines. Following up on our previous communication from the Texas DOT and some new database functionality:

1. Next week we received an email from the Texas DOT, announcing that they have released their NEV program documents, for which they need feedback by December 16.

Here is a link to the Texas DOT NEV Program — scroll down to the section for Texas Statewide facilities and download the “Electric Vehicle Database” file, which is an overview from the Texas DOT.

The program documents below have been drafted and made available for review and comment until Friday, Dec. 16, 2022.

The program documents are open for public comment and are subject to change. Please send your comments to EVAdoption via email.

Texas DOT has not yet set dates for the opening and deadline for the application process — this deadline is just for feedback on their draft application, scoring methodology, and other documents. There are several interesting items in the Texas overview, including:

- Full price for 2000 sq. ft. or greater
- Full price for $500,000 or less per commercial
- Full price for minimum setback through parking stalls
- Full price for a retail agreement to place the site back
- Full price for the Bay Area requirement

Since 2019, EV or higher are no changes were mandated significantly more than 1000 vehicles, and it currently is a higher deployment rate and the Bay Area requirement. Texas is likely the only vendor that could meet these requirements. Of course, Texas-based fridges are likely to see the CO2 connected to the electrical connection which is likely to be the future of vehicles. NEV & CES connections are a challenging requirement at the heart of the program, and these vendors are doing their best to qualify for the Texas grants.

Updates (2)

Section: Buy America Waiver

4) Buy America Requirement Waiver: Earlier this week we received a question from a client about the Buy America requirement within the NEVI program related to EV charging hardware. We dove into the question and discovered three things:

- Within the state NEVI plans we discovered that they had very different takes on the Buy America requirement. In fact, some had a fairly negative commentary towards the requirement saying it’s going to be very difficult to meet the requirement and that they would be seeking a waiver.
- We then discovered that FHWA actually had sought input towards a potential Buy America waiver and set a deadline of September 30 for feedback.
- We then reached out to FHWA for an update and received the following response:

  FHWA posted the Notice of Proposed Waiver of Buy America Requirements for Electric Vehicle Chargers in the Federal Register for comments on August 31st with a close date of September 30th. FHWA is currently reviewing comments to determine what course of action is most appropriate. We don’t have a verified timeline at this point, but we understand the urgency of the issue and hope to release something by the end of the calendar year.

We will keep clients up-to-date as soon as we hear anything on the waiver.
Upcoming Event Reminder

Reminders are Sent 30 Days Before Event Date

DATABASE SUBSCRIPTION

DECEMBER 1, 2022

This is a reminder of upcoming events:

1. ONiD DOT JOINT Request for Proposals (RFP) is on 12/21/2022
2. Iowa DOT RFP Funding Announcement is from 12/21/2022 to 03/20/2023
3. Montana Project Awarding is from 12/21/2022 to 06/21/2023
4. North Carolina Public Solicitation Phase I Group 1 is from 12/21/2022 to 03/20/2023
5. Texas Evaluate Proposals is from 12/21/2022 to 03/20/2023
6. Vermont VTrans Awarding is from 12/21/2022 to 03/20/2023
7. West Virginia WVDOT Solicitation is from 12/21/2022 to 05/20/2023
